A4 - 12 209
80 - 3108

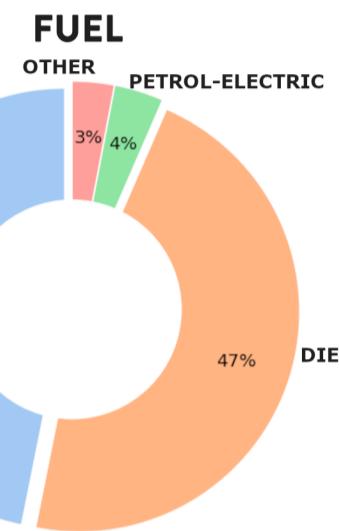

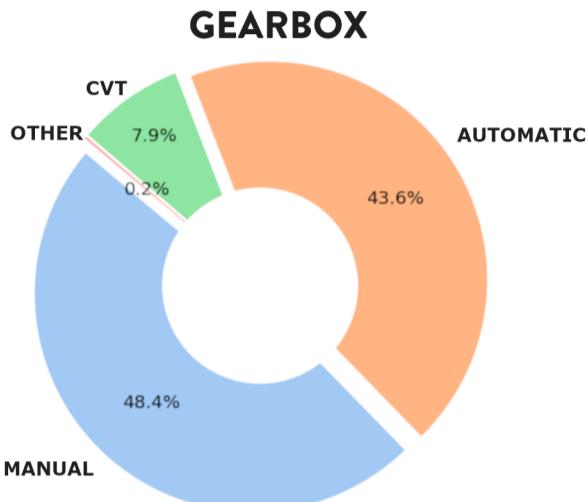

VOLKSWAGEN

PASSAT - 28 788
GOLF - 17 374
TIGUAN - 4194

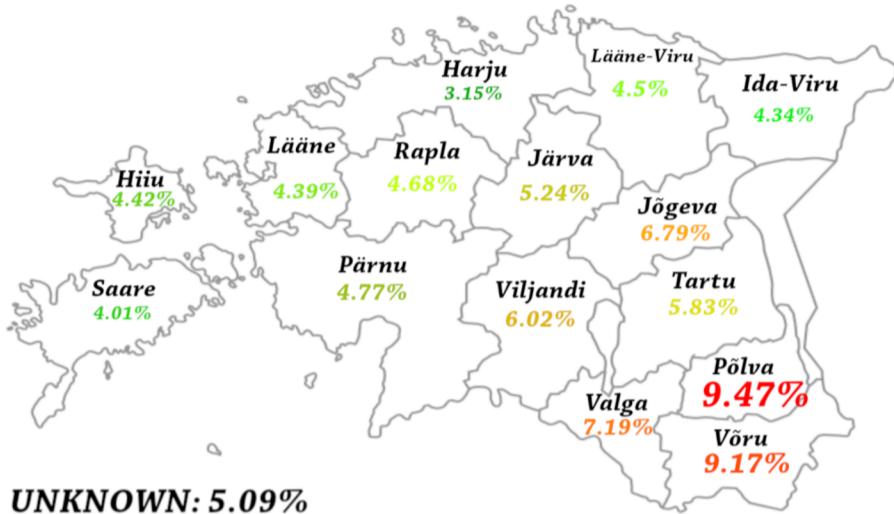

TOYOTA

AVENSIS - 14 472
COROLLA - 11 504
RAV4 - 11 358

CAR PREFERENCES

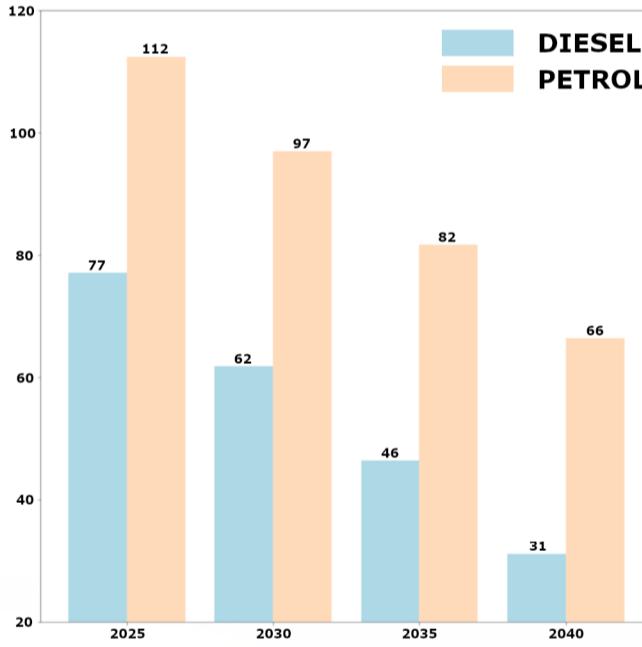

PASSAT'S PER COUNTY

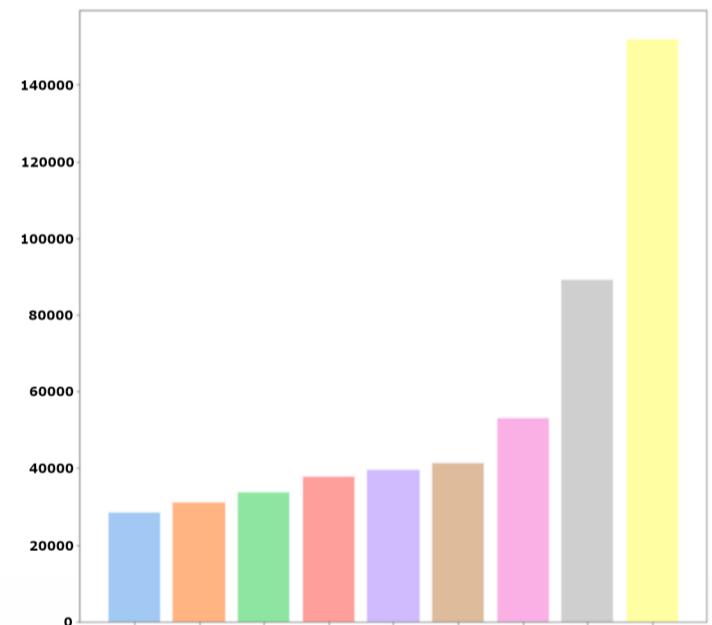

ENGINE POWER(kW)

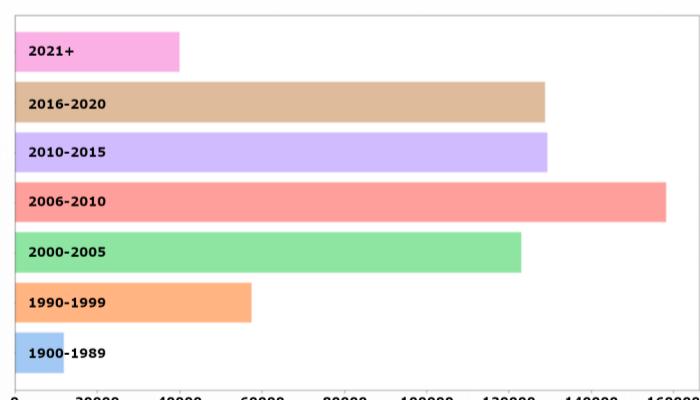

CO₂ PREDICTION

ENGINE SIZES

MOST POPULAR CAR YEARS

TECHNICAL ASPECTS FOR PREDICTION

ENGINE SIZE - 2.0L
WEIGHT - 1500kg
POWER - 118kW
TRANSMISSION - AUTOMATIC

BUT WHY?

We chose 2.0L engine size because it is the most popular. Weight - how much average car weights. Found most common engine power using our data. Automatic transmission because we found that 64% of 2010+ cars use that gearbox and in the future most new cars come only with it.
